

Errata for A New Criterion Using Information
Gain for Action Selection Strategy in
Reinforcement Learning

Kazunori Iwata

last modified January 18, 2005

Appendix II, p. 798 $C = \max_{(s,a) \in \mathcal{S} \times \mathcal{A}} \ell(s, a) \implies C = \max_{(s,a) \in \mathcal{S} \times \mathcal{A}} l^*(s, a)$
